# Global Green Accounting 2015

The first annual annotated bibliography of green  
national accounting efforts around the world

 Fundación INESAD

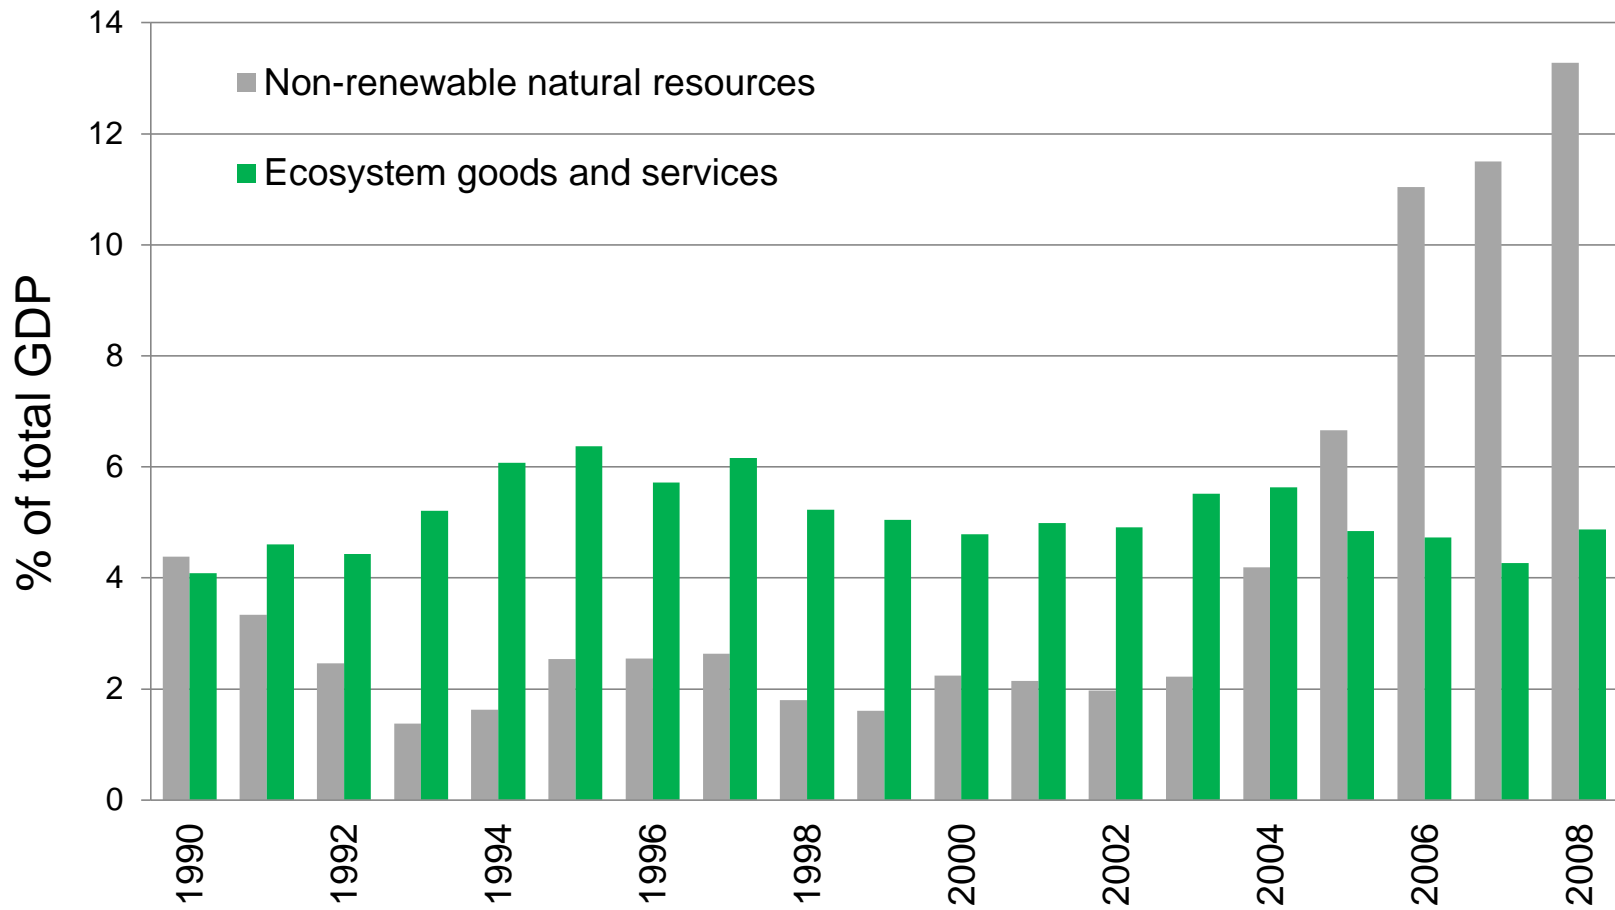

# Figure 1 | SEEA methodology

**Figure 2 |** *The relative contribution of different factors of production to sector GDP, Bolivia 2008*

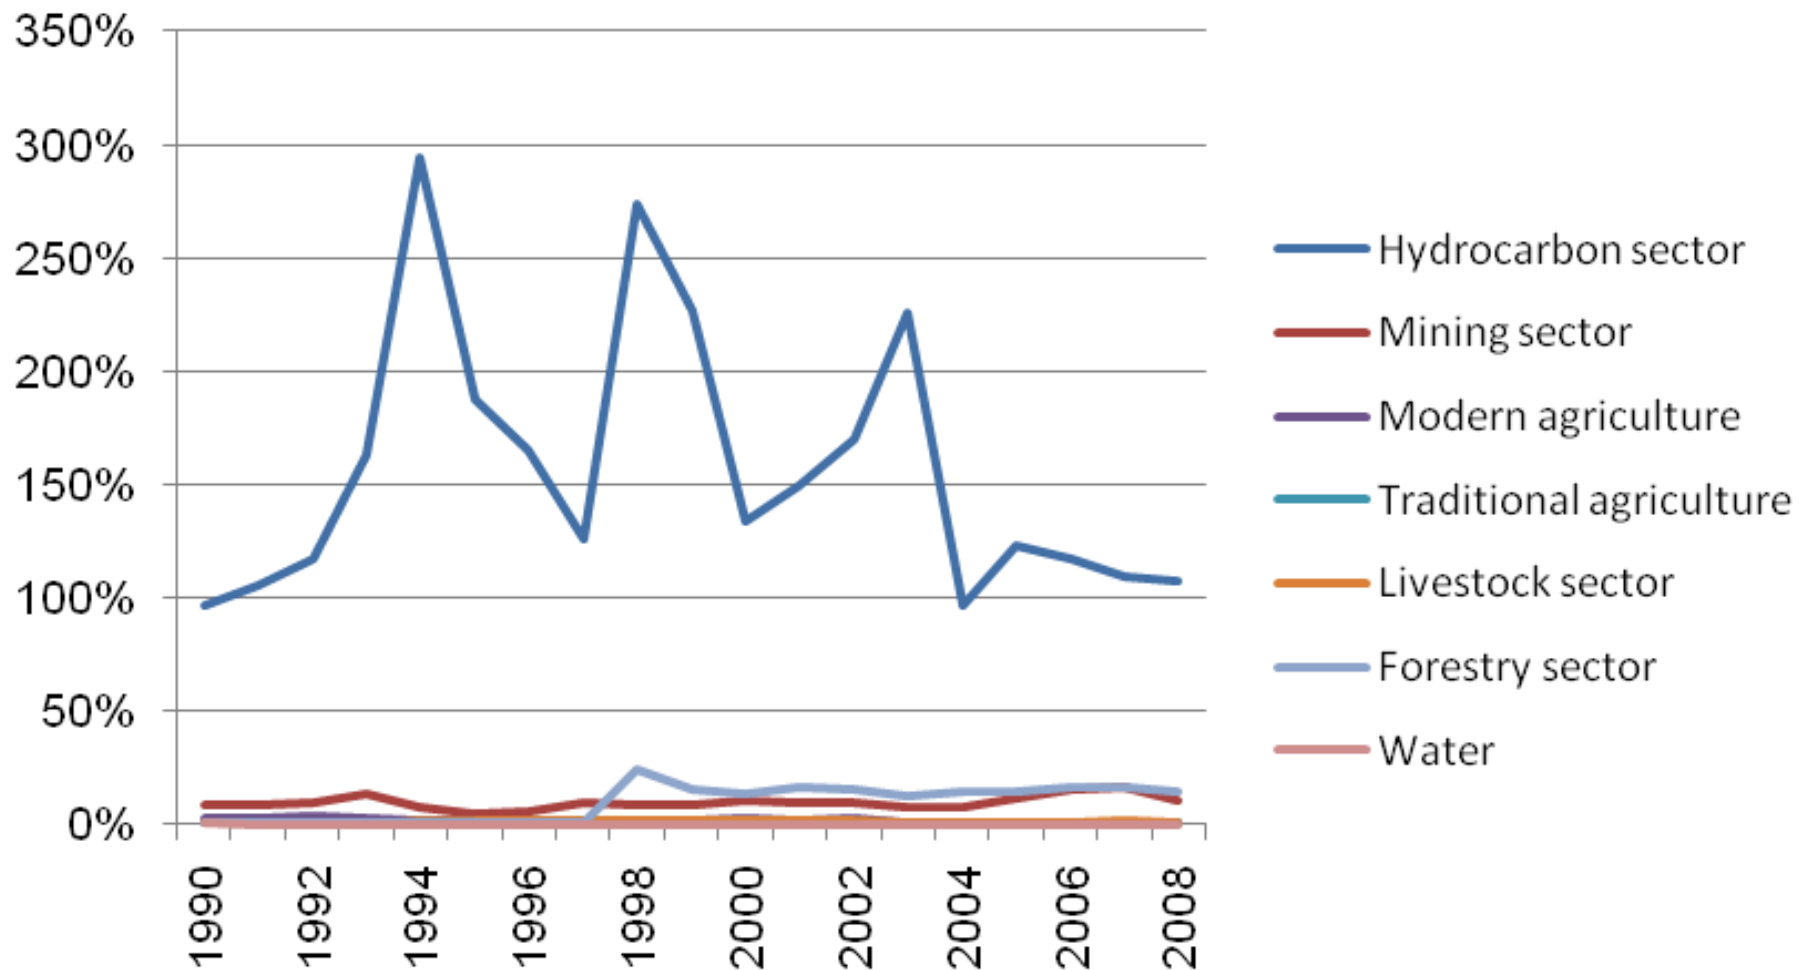

**Figure 3** | *The contribution of non-renewable natural resources and ecosystem goods and services to total GDP, Bolivia 1990 - 2008*

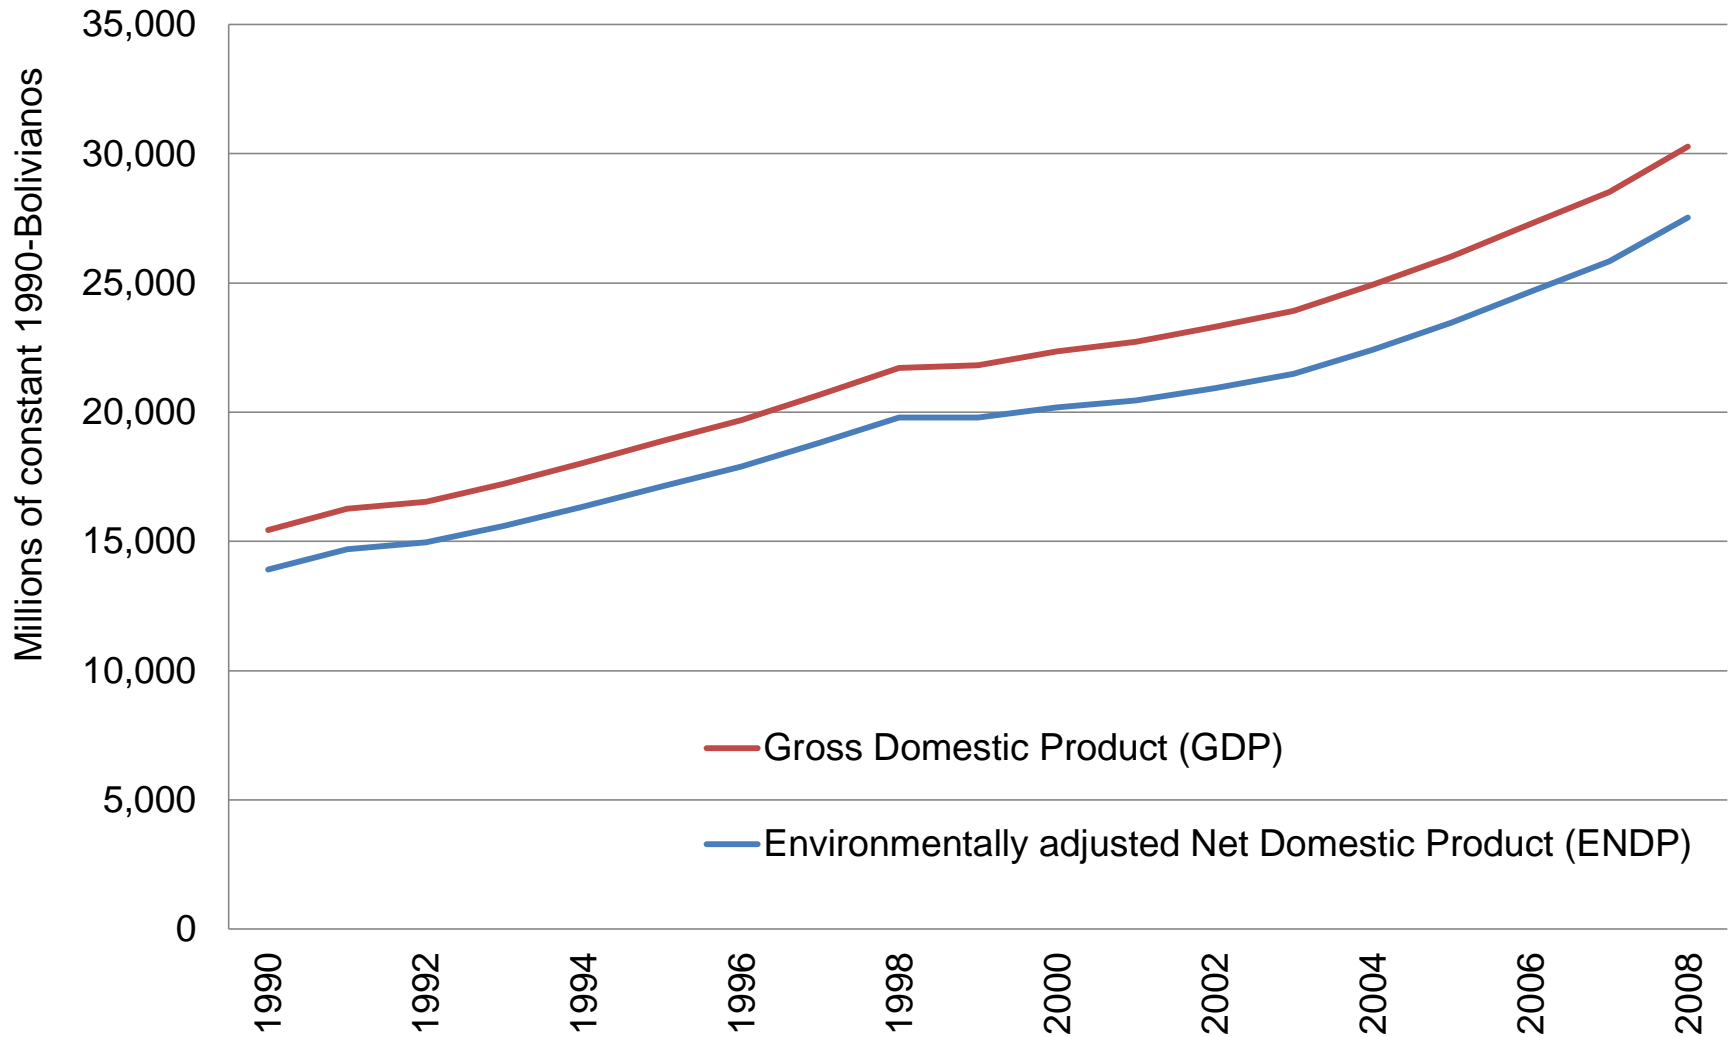

**Figure 4 |** *Producer taxes as percent of natural resource rents in each sector, 1990 - 2008*

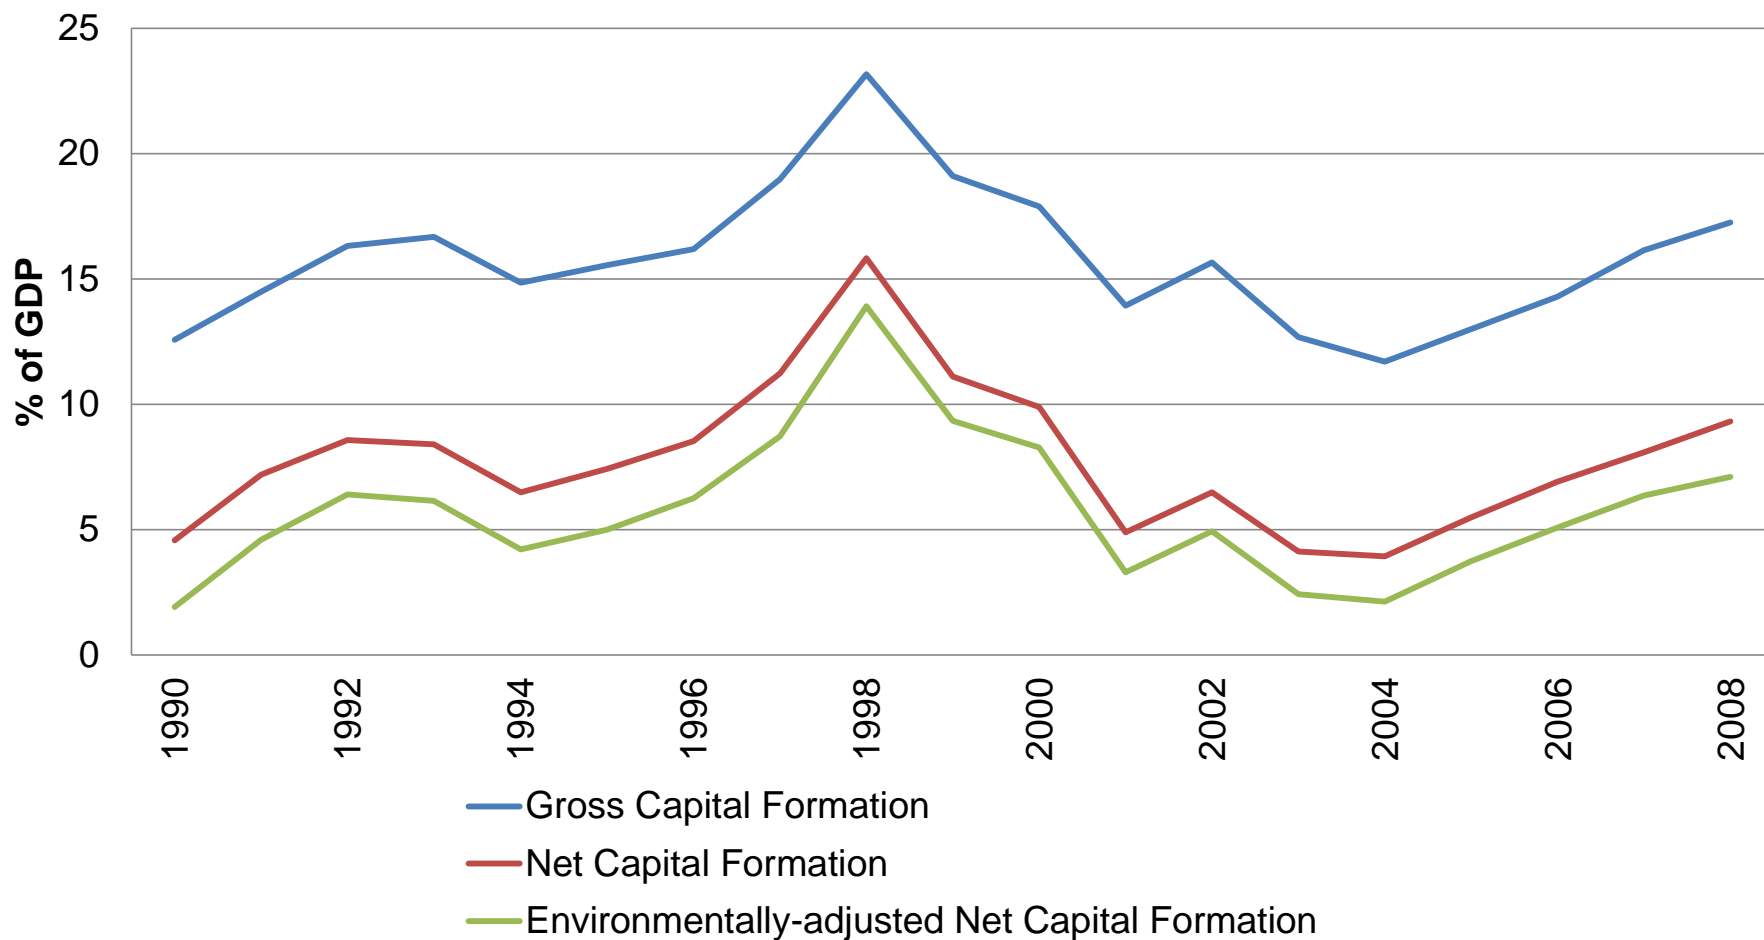

# Figure 5 | GDP versus ENDP, Bolivia, 1990 - 2008

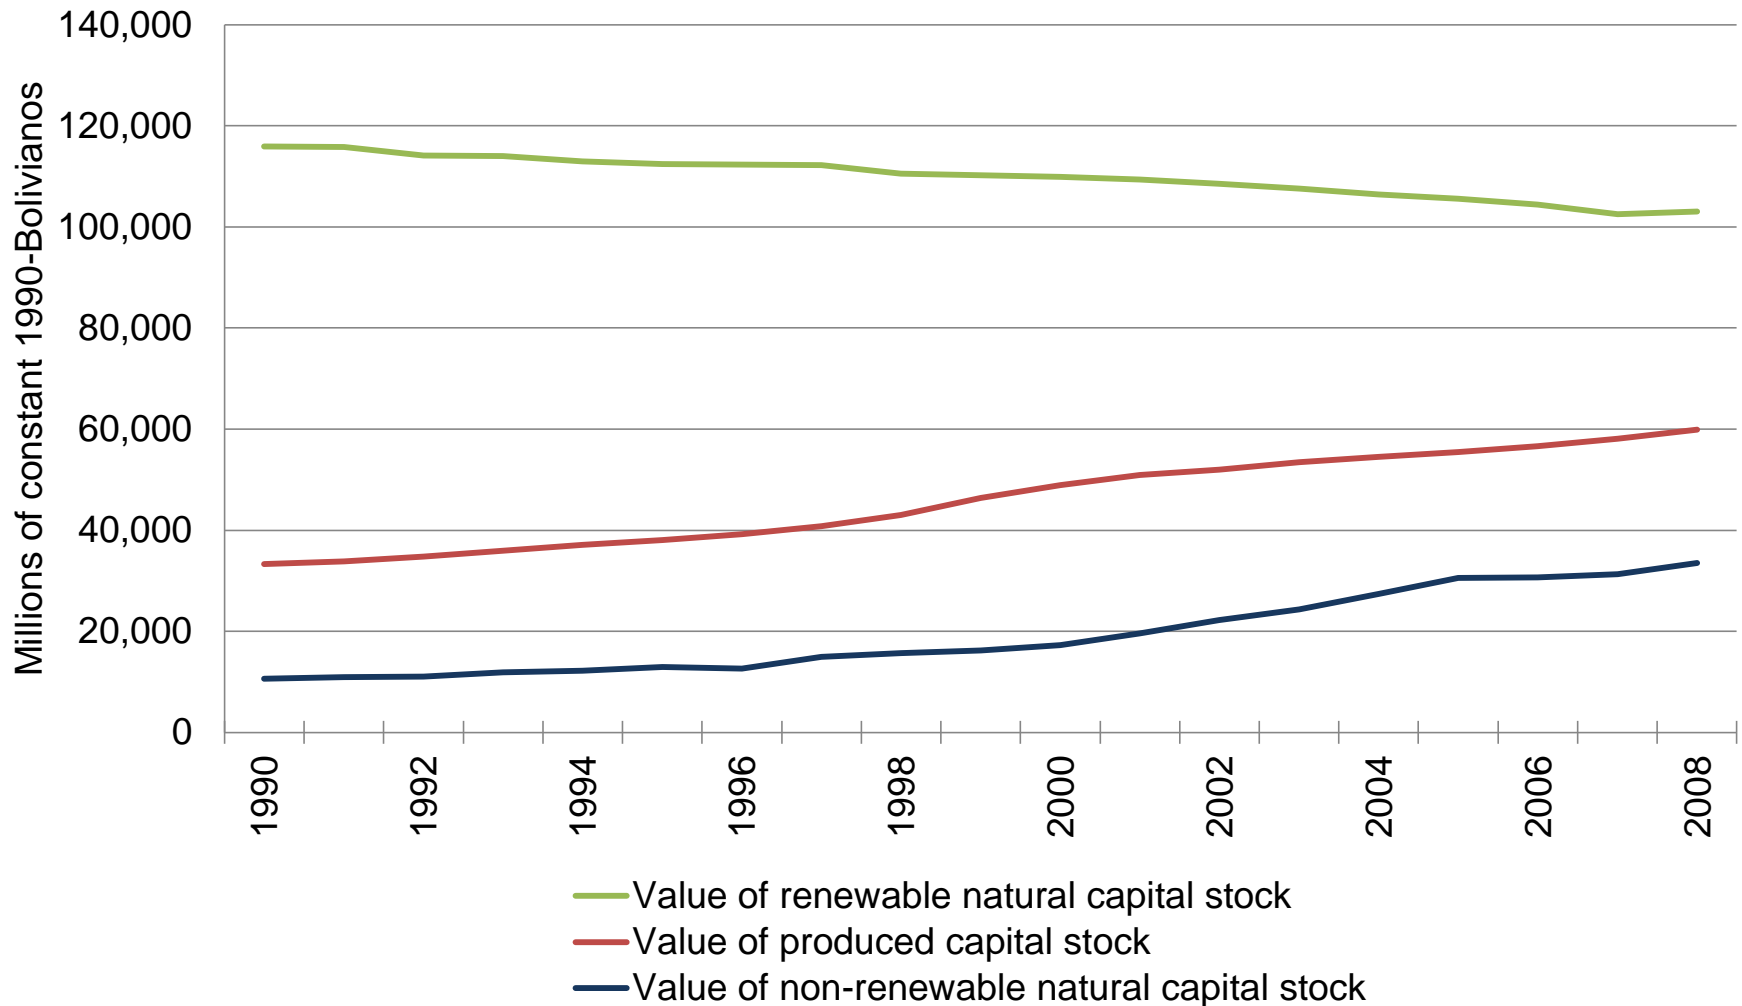

**Figure 6 |** *Gross Capital Formation, Net Capital Formation, and Environmentally-adjusted Net Capital Formation (% of GDP), Bolivia, 1990-2008*

**Figure 7** | *Evolution of the total stock of productive capital in Bolivia, 1990-2008*

# Work in progress

- Include human capital in the Green accounts.
- Develop sub-national Green accounts.

## Pending

- Include contamination (especially important in the mining sector).
- Adoption by the National Statistical Institute.

# Global Green Accounting 2015

The first annual annotated bibliography of green  
national accounting efforts around the world

 Fundación INESAD

# Figure 8 | Progress on Green National accounting around the world, 2015

- SEEA (or similar) methodology implemented officially and systematically by National Statistical Office
- SEEA/Other methodology applied partially and unofficially by independent institutions
- Experiments (Research - Implementation) with other green accounting methods
- No green accounting efforts so far

# Thank you!
