Objectives

- To **orient stakeholders in Southern Palawan** on how Ecosystem Accounts can be useful in shaping effective policies.
- To **review tentative policy questions** that will be used to guide the development of the ecosystem account.
- To **examine how to practically apply/adapt the tool of ecosystem accounting** to the policy priority questions and context in Southern Palawan.
- To **continue the process of stakeholder engagement**.

Expected Outcomes

- **Better understanding of the Ecosystem Accounting tool** and how it can be used to help shape effective policies.
- **Refined policy priority questions** used to guide the development of the ecosystem account.
- **More clarity on how to practically apply/ adapt the ecosystem accounting tool** to the policy priority questions and context in Southern Palawan.
- **Stakeholders' fully engaged** and their views fully harnessed.

Wealth Accounting and Valuation of Ecosystem Services
