

Elements to consider for a successful COP

- 1) Information on demand and gaps
- 2) Clear objectives
- 3) A coordinator fully funded
- 4) Grounding it at regional level.
- 5) Build on existing work.
- 6) Skilled economists at the centers could contribute with support and training on environmental-economic analysis
- 7) The NCA CoP would articulate goals and targets for its members in a timeline
- 8) Who are the members?
