

GROUP B. WATER

Members:

1. Virgilio Bombeta LWUA (Presentor)
2. Noel Gaerlan DENR- MBCO
3. Evangeline Santiago UP-NSRI
4. Evelyn Bacud PCAPI
5. Amy Lecciones SCPW
6. Geraldine Mendoza PRRC
7. Jonathan Carlo Briones UST
8. Emmie Ruales NWRB

Facilitator: Dolora Nepomuceno LLDA

LLDA Rep.: Jocelyn Sta Ana

Documenters: Ernie Bongco
Gold del Prado

INFORMATION SHARING	PRIORITIZATION OF PROGRAMS AND ACTIVITIES	POLICY
1. Research on pollution in Laguna Lake	1. To guide in prioritization of interventions/activities	1. Essential /vital tool for decision support system (DSS) in the rehabilitation and sustainable management and development of the watershed.
2. Management of water quality of Laguna Lake	2. Water quality allocations	2. Policy to establish linkages with water users (manufacturers) i.e. how to conserve resources to increase wealth values of the lake.
3. Sharing of knowledge among stakeholders/ Improve communication and dissemination of information	3. Mapping of sources of pollution to identify areas where rehabilitation or remediation activities should be done	3. Policy on aquaculture vs. open water fishery and foreshore encroachment

INFORMATION SHARING	PRIORITIZATION OF PROGRAMS AND ACTIVITIES	POLICY
4. Standardization of data parameters and data collection methodologies	4. Sanitation for households	4. Policy to improve data generation exchange
5. Advocacy tool or agent for behavioural change of lakeshore dwellers	5. Air quality improvement in Metro Manila. (Mass transit system instead of jeepneys and buses that are not energy efficient as well as industries that emit pollutants)	
6. Data sharing between government and private sectors to improve research	6. Could clarify the question on the value of biodiversity per se (# of species that are indigenous) since it has no clear economic value.	
7. Strongly push for LdB Basin data disaggregation		

INFORMATION SHARING	PRIORITIZATION OF PROGRAMS AND ACTIVITIES	POLICY
8. Identify gaps and overlaps in data collection, data availability and usage		
9. Platform to share research studies which can be used as tools in managing our resources
