

# NATURAL CAPITAL FOR AFRICAN DEVELOPMENT FINANCE PROGRAMME

(NC4-ADF)

# About the program:

## Goal:

- Mainstream natural capital approaches in African development finance.

## Four strategic pillars:

1. Apply natural capital approaches to African infrastructure finance projects
2. Build consensus for natural capital approaches among multilateral development banks (MDBs)
3. Integrate natural capital practices in African sovereign credit ratings.
4. Raise capacity for natural capital accounting and assessment in Africa.

# Progress to date:

- **Joint Implementation Committee (JIC)** - multi-stakeholder team established led by AfDB, GGKP and WWF with financial support from GIZ/BMZ and Mava Foundation.
- **Case studies ongoing;** Nigeria, Tanzania (Kakono hydropower assessment using SAVi tool completed), Mozambique and Mozambique.
- **Working group:** within African Community of Practice on Natural Capital and Development Finance in offing.
- **Africa Sovereign credit scores & Natural Capital:** Initiated discussions with credit rating agencies e.g Moody.
- **Natural Capital Academy:** currently in design phase.
