

Map Layout Exercise

1. After opening and symbolizing desired map layers from the project canvas, Open 'Composer Manager (CM)'. Click 'add' and name our layout, click 'show' after.

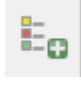

2. After the CM pops-out, click 'add map' and drag its extent to the canvas. Fix the scale.

3. Add the following map elements:

a. North Arrow

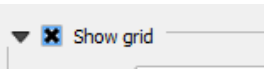

b. Scale Bar 

c. Legend 

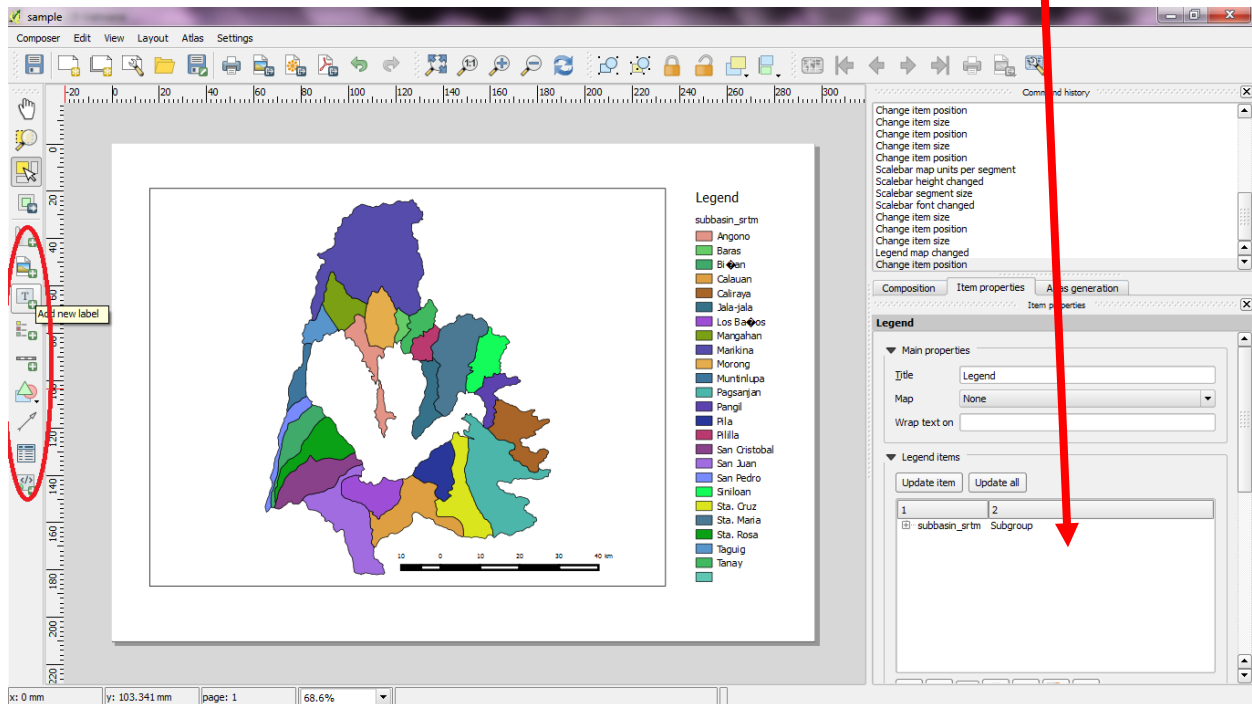

d. Title 

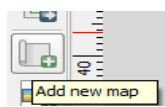

e. Metadata 

f. Map Inset/s

g. Grid 

*Note that for every item entered, the properties can be edited to the box on the right.

4. Create insets by 'adding new map' again,  open 'Phil_inset' from the main project canvas. Click 'update preview' to the new inset.

(Option 2: Add image  of a known inset)

5. Finalize your map, save, export
