

Policy challenges

Dr. Julian Wright, UK DFID

The Fisher Space Pen

Sealed Pressurized Ink Cartridge

Stainless steel, precision-machined socket prevents leaks and oozing, yet delivers instant uniform ink flow

Thixotropic ink in a hermetically sealed and pressurized reservoir writes three times longer

Ink will not dry out for over one hundred years! Writes at any angle at temperatures of -30°F to $+250^{\circ}\text{F}$

Developed For
NASA

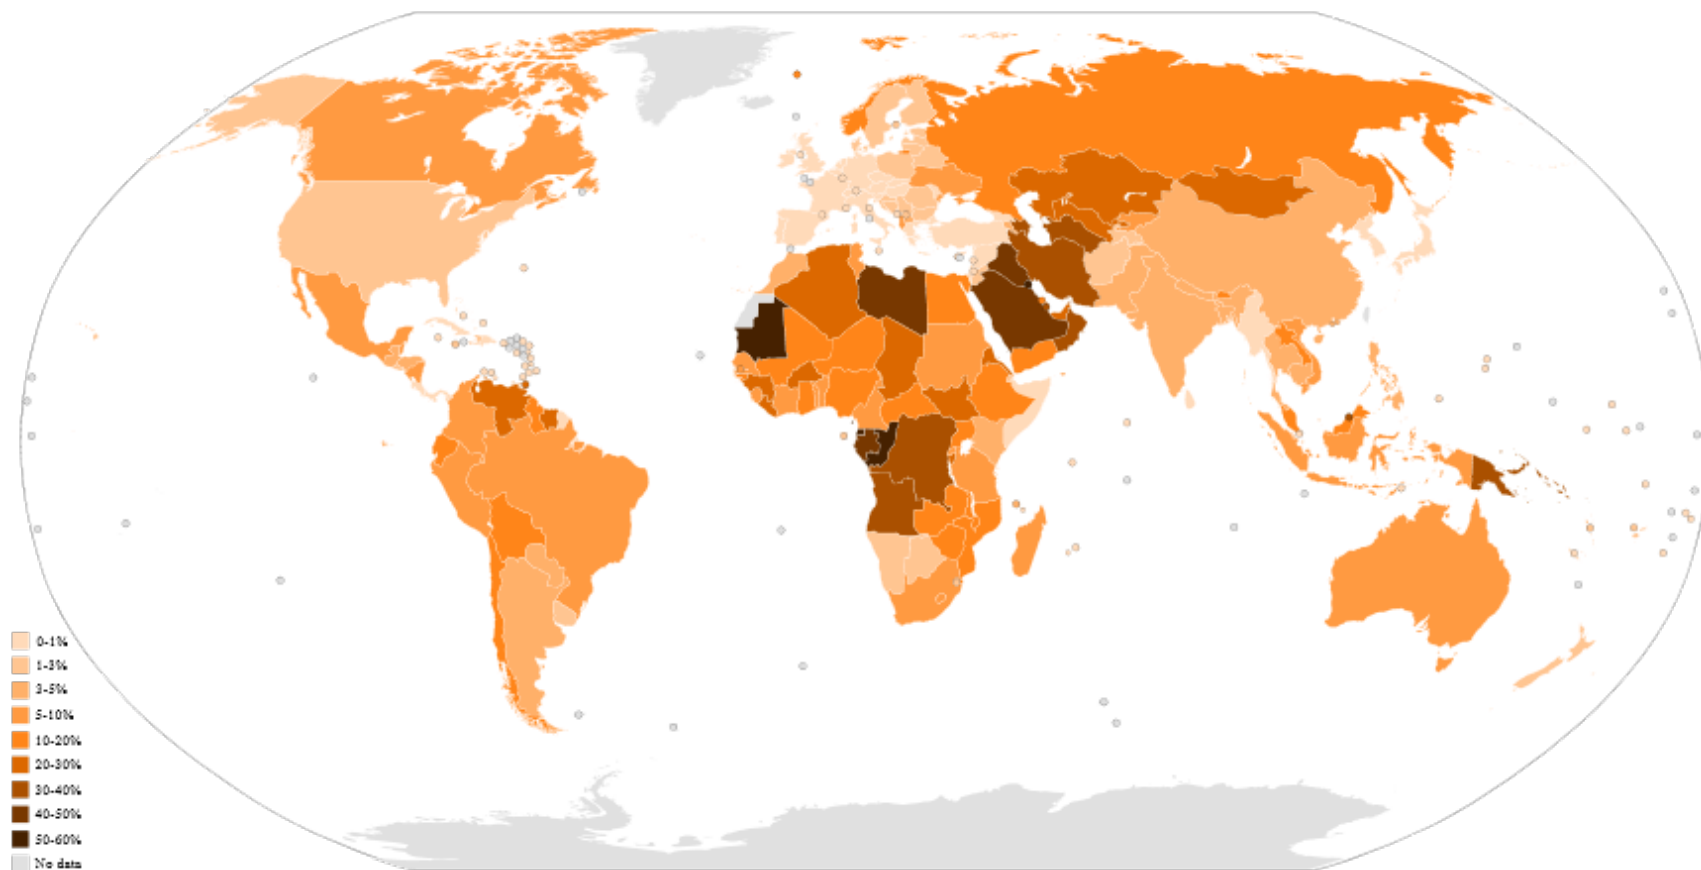

1) Who is the audience?

2) What is the niche of NCA in the ecosystem?

Natural resources as % contribution to GDP

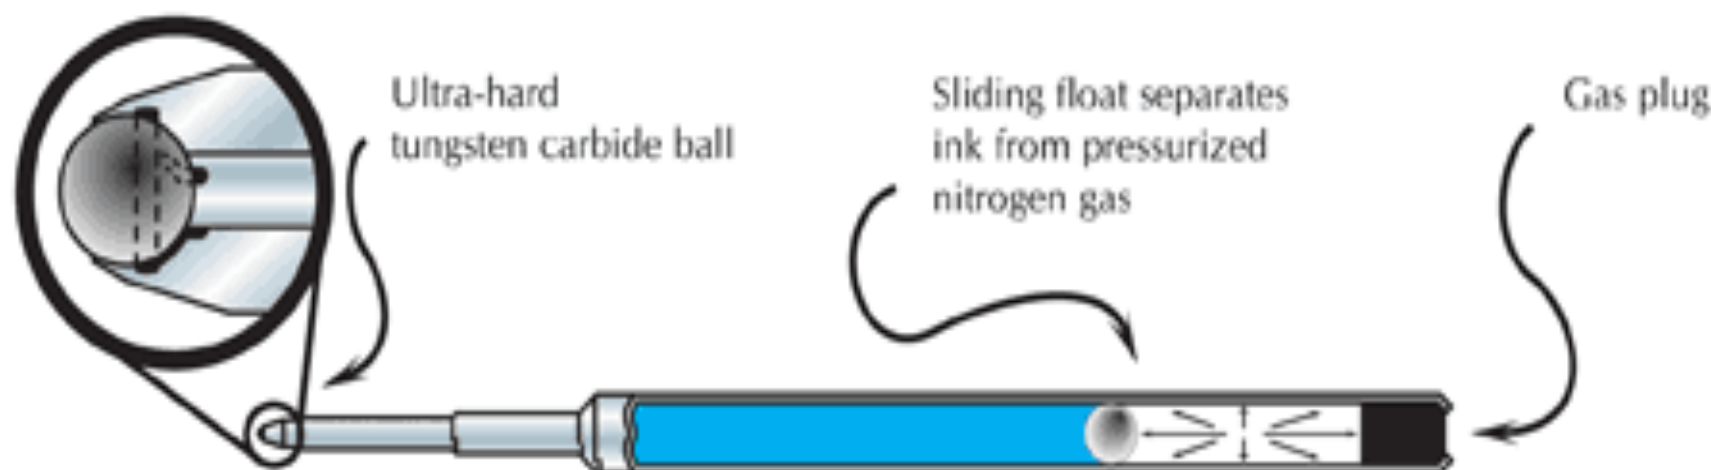

3) What is the value for money?
