

# **The SEEA Implementation Strategy**

## **WAVES, Third Partnership Meeting**

**Alessandra Alfieri**

**UN Statistics Division**

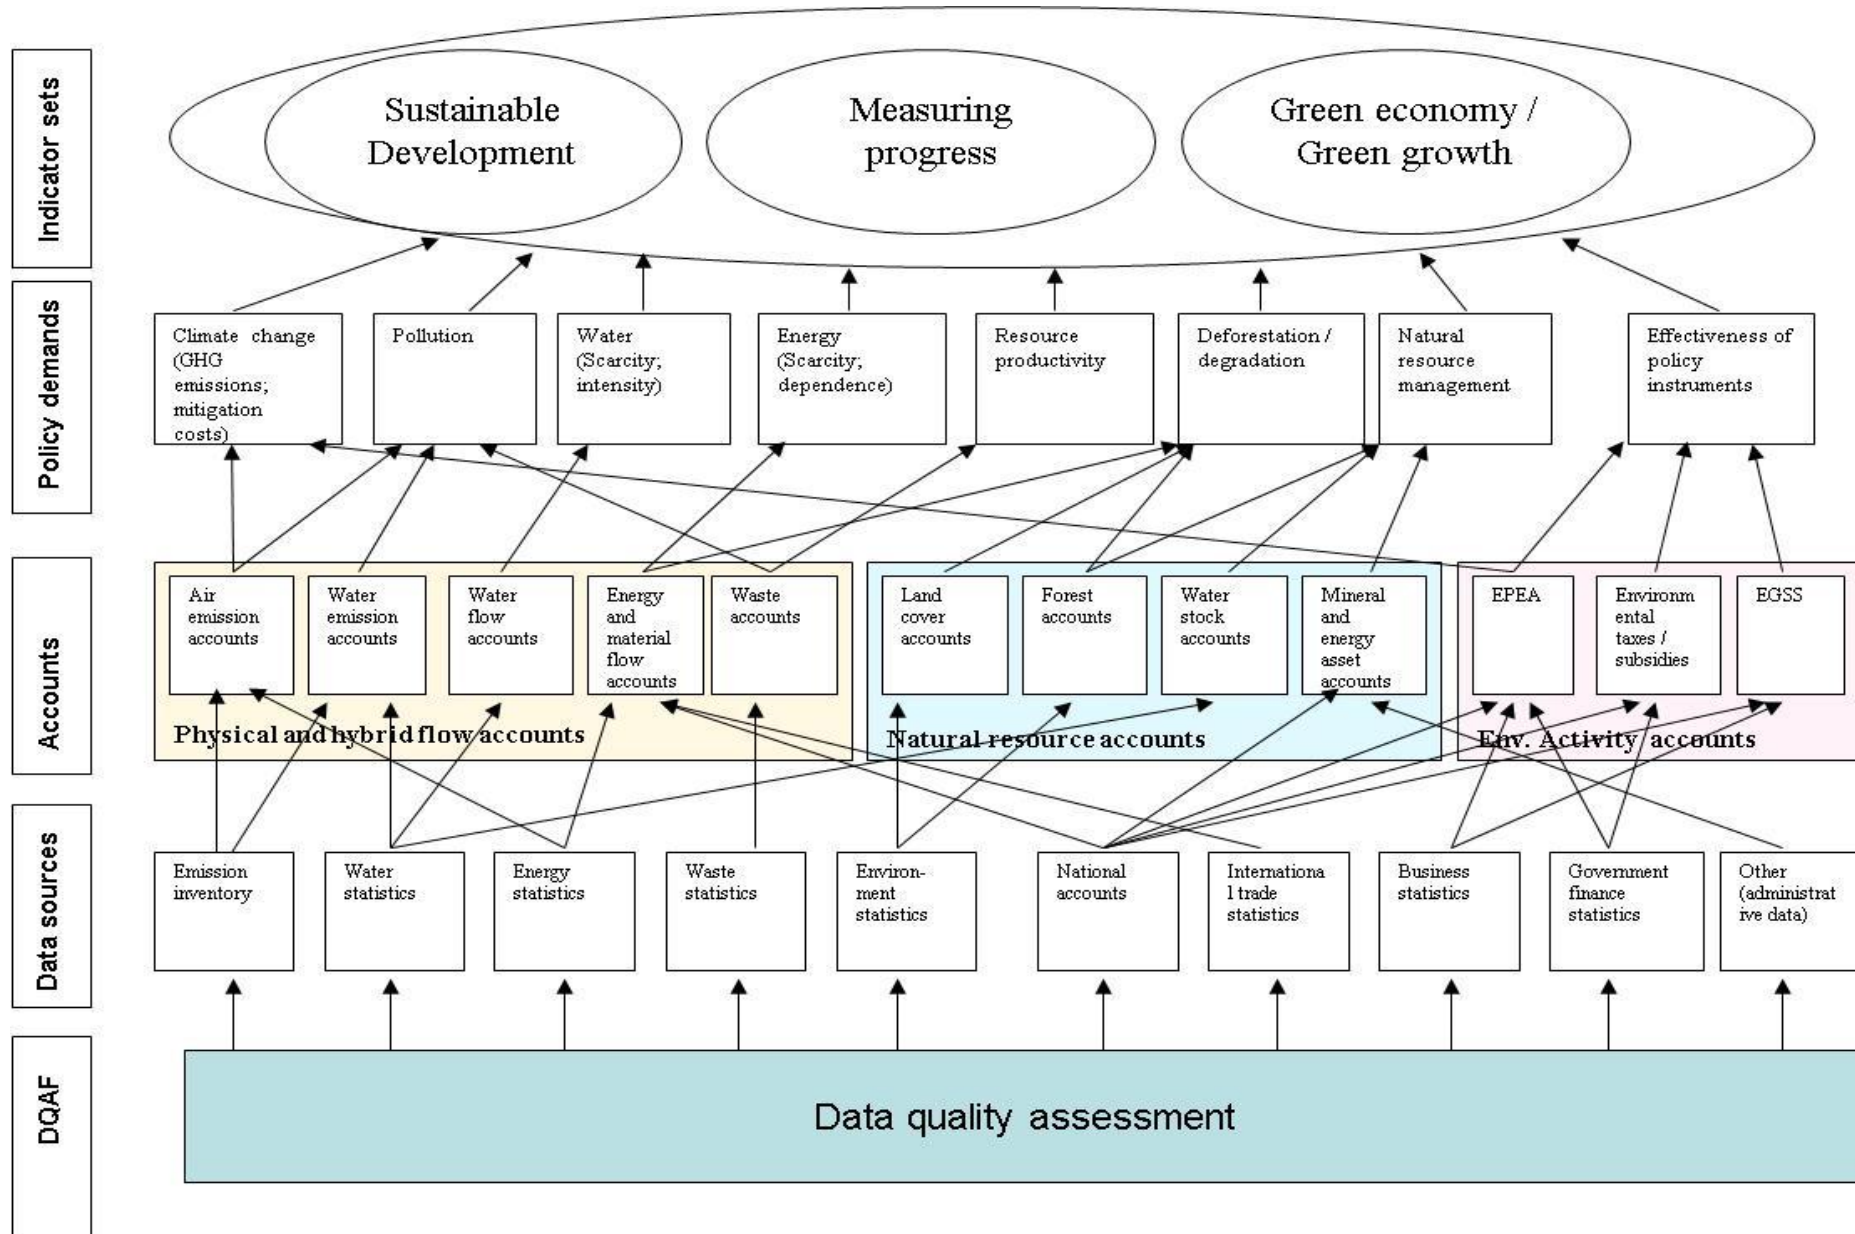

**Chief, Environmental-Economic Accounts Section**

## SEEA implementation strategy

- Adopted by the UNSC in March 2013
- Objectives:
  - To assist countries in adoption of SEEA and strengthening supporting statistics
  - Establish technical capacity incrementally for regular reporting on minimum set of accounts
- Flexible and modular approach
  - **First phase:** national institutional mechanism
  - **Second phase** : self-assessment
  - **Third phase** : data quality assessment
  - **Fourth phase** : draft strategic development plan
- csd

# Diagnostic tool for self-assessment

# Sub-regional approach to the implementation of the SEEA

- Support from Regional Commission and regional trade groupings
- Users involved – working with partners
- Lead country
- Coordinated implementation with SNA and global programme of agriculture statistics
- Collect once and use many times
- Improve the efficiency of the statistical production of basic data
