Session 6: NCA FOR Government Processes

By: Edwin M. Itshekeng, Botswana
Ministry of Finance & Economic Development
Overview of NCA in Botswana

• Botswana is a drought-prone country, and water scarcity poses developmental challenges.

• The country embraced NCA following the outcome of the Gaborone Declaration for Sustainability in Africa (GDSA) in 2012. NCA prioritized for: water, minerals and energy resources, including compilation of macroeconomic indicators of sustainability.

• Capacity building and a process to institutionalize the accounts was led by Government, with support from the World Bank, through the WAVES Global Partnership programme.

Achievements:

• Water Accounts – 4 (annual) technical reports produced, covering 2011/12 – 2015/16
• Mineral Accounts – 1 report, 2016
• Energy Accounts – 1 report, 2016
• Macroeconomic Indicators of Sustainability: 2 reports, 2017
• For details about the reports, log on to: www.wavespartnership.org @ resource centre

Concluding remark

• It is important that past successes should not lead to complacency

Even if you are on the right track, you’ll get run over if you just sit there
THANK YOU!
