The SEEA Implementation Strategy
WAVES, Third Partnership Meeting

Alessandra Alfieri
UN Statistics Division
Chief, Environmental-Economic Accounts Section
SEEA implementation strategy

- Adopted by the UNSC in March 2013
- Objectives:
  - To assist countries in adoption of SEEA and strengthening supporting statistics
  - Establish technical capacity incrementally for regular reporting on minimum set of accounts
- Flexible and modular approach
  - **First phase:** national institutional mechanism
  - **Second phase:** self-assessment
  - **Third phase:** data quality assessment
  - **Fourth phase:** draft strategic development plan

- csd
Diagnostic tool for self-assessment
Sub-regional approach to the implementation of the SEEA

- Support from Regional Commission and regional trade groupings
- Users involved – working with partners
- Lead country
- Coordinated implementation with SNA and global programme of agriculture statistics
- Collect once and use many times
- Improve the efficiency of the statistical production of basic data
